Student mental health wiki is a resource for those working in the area of tertiary student mental health. It offers an opportunity for sharing of mental health promotion materials between institutions.

If you are working in an institution and looking to develop health promotion resources but don't have the time or money to do it from scratch, then studentmentalhealthwiki.org is here to help!

If you have mental health promotion materials - posters, flyers etc., reports or any other material that you would like to contribute to assist other institutions, please create a page and post them on the site!

Student mental health wiki has been funded by the Australian Government Department of Education, Employment and Workplace Relations under the National Disability Coordination Officer Program and is currently being run by the mental health literacy team at the University of Melbourne. Contact nreavley@unimelb.edu.au for further information.
